

ENERGY CHANGE STABILITY PEACE

One pillar is replaced with its subtype that is related to heat. (ENERGY → THERMAL)

THERMAL CHANGE STABILITY PEACE

The first two letters of another pillar are replaced to form a citrus fruit (**CHANGE** → **ORANGE**)

THERMAL **ORANGE** STABILITY PEACE

One pillar loses an ACE, making it a class that a young one in school may take (**PEACE** → **PE**)

THERMAL ORANGE STABILITY **PE**

One zesty pillar is replaced with its cutie smaller version (ORANGE → CLEMENTINE)

THERMAL **CLEMENTINE** STABILITY PE

The fire nation attacked. Only the first letter of two pillars remains. Now three pillars must be combined to make a non-human companion. (THERMAL → **T**, STABILITY → **S**, + **PE** = **PETS**)

CLEMENTINE **PETS**

With two pillars remaining, we finally have an answer, but it doesn't make much sense...

Maybe a look at past episodes can help.

How to get from CLEMENTINE PETS to INSPECT ELEMENTS :

We use an indexing of "CLEMENTINE PETS" with episode numbers. For example, "Avatar Roku" is the 8th episode in Avatar, and the 8th letter in "CLEMENTINES PETS" is "I". Next, "Imprisoned" is the 6th episode, and the 6th letter in "CLEMENTINES PETS" is "N", etc.

<u>Episode Name</u>	<u>Episode Number</u>	<u>Corresponding Letter</u>
Avatar Roku	8	I
Imprisoned	6	N
The Fortuneteller	14	S
The Great Divide	11	P
The Southern Air Temple	3	E
The Boy in the Iceberg	1	C
The Spirit World	7	T
 The King of Omashu	 5	 E
The Avatar Returns	2	L

Jet	10	E
The Warriors of Kyoshi	4	M
The Storm	12	E
The Waterbending Scroll	9	N
The Blue Spirit	13	T
The Fortuneteller	14	S

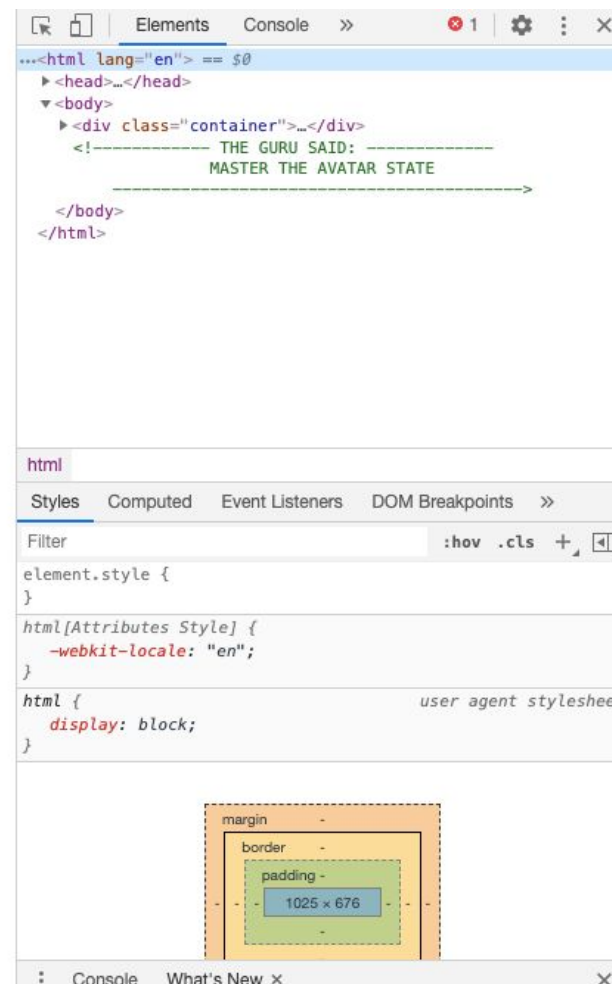

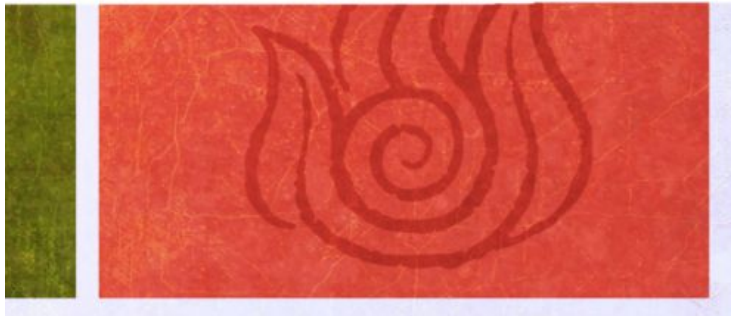

When you're ready, [return to the site](#).

Now, you go back to the website and "Inspect Elements" on the page.
There is a comment in the code with the answer:

s from the four great masters, the guru
s only one thing left to learn before he can
the guru tell Aang?

[out, follow this path.](#)

As shown in the Inspect Elements console, the solution is **"MASTER THE AVATAR STATE"**.
